As of today twenty-one million American workers are investing eight per cent of their salary - every pay day - in United States War Savings Bonds. This is a very remarkable tribute to our armed forces who are fighting this war. But this job is only two-thirds accomplished. There are nine million additional American

workers who are not investing in War Bonds every This appeal is directed to two groups of

Americans: First - the twenty-one million people who are investing eight per cent of their wages. We ask them to increase their investment to ten per cent

Second - the other nine million whom we ask to join the Payroll Savings Plan and to invest ten per cent or more of their earnings.

It is our earnest hope here at the Treasury Department that by New Year's Day thirty million Americans will be investing ten per cent or more of their wages in War Bonds through the Payroll Savings Plan.

> Wish I had time and talent to the home itself? It determines, diall you about many other things, rects, sweetens—yes, glorifies the 1. Husband and Wife (Eph. 5: 28-31). This passage puts marriage on the highest plane, comparing it and the church. Thus marriage is the joining of man and wife in a sacred union which calls forth love in its highest and noblest sense.

This means that the husband cherishes his wife as his own body, against which no man would do any harm, and for which he makes every possible provision for its comfort, health, usefulness and attractiveness. Such love between parents will lead the entire home life along in a serene, happy and wholesome way. It will not only double the joy, but will give strength in the hour of sorrow, dividing the griefs and burdens of life. It will set the pattern for the right

2. Parents and Children (Eph. 6: 1-4). The first, and one might almost say the only, law of childhood is obedience. It is God's way to joy and a satisfying life experience for the child in the Christian home. The command to obey carries with it the understanding that the parents are "in the Lord." What father or mother is competent to direct a child apart from faith in Christ? Notice too, that the parent has an obligation to deal intelligently and kindly with the child. We need a great deal of improvement, and perhaps instruction, at that point. Authority asking obedience is necessary, but it can be wise and kind. Above all, there is to be a divine nurture, a guiding of the tender child life in the ways of God. Here
